DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6,8-12,28,30 and 31-36, drawn to a product.

Group II, claim(s) 6,7,9, drawn to a product.

Group III, claim(s) 13-15 and 25-27, drawn to a product.

Group IV, claim(s) 16-18, drawn to a product.

Group V, claim(s) 19-23, drawn to a product.

Group VI, claim(s) 24, drawn to a product.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each independent claim (i.e. 1,6,13,16,19 and 24) has a different special technical feature not required by the others. The examiner will list the non-corresponding specific technical features of each Group below:

Group I has different pitches for the embossments.

Group II has trough geometry in the concave portion and plateau forming top surfaces on the convex portions.

Group III has segmented walls.

Group IV has a specific Ra value.

Group V has convex portions with segmenting troughs not on the same level as a bottom of the continual trough geometry of the concave portions.

Group VI has an angle between the concave trough and direction of extrusion.

Art Unit: 1772

Claim 29 will be examined with which ever Group is elected since it depends from all claims except claim 24. The examiner would like to note to the applicant that claims 3-5 and 29 are improper multiple dependent.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald J. Loney whose telephone number is 703 308-2416. The examiner can normally be reached on Tues-Fri, 8:00-5:00..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 703 308-4251.
